Home Exterior LED Lights

Contractor's Choice - Reliability - Speed of Install - Professional Grade

Premier Canadian-made Outdoor LED Fixtures

Installing contractors - DelphiTech products will surely impress your customers who are interested in saving energy costs on their outdoor home lighting. You can install the best quality fixtures that use a low voltage 12 VDC power supply providing a CSA/UL rated complete system. Our premier products have an industry leading warranty that is transferrable to future home owners too!

- Build your reputation with quality exterior-grade products
- Fixtures optimized for residential soffit use
- Enjoy wiring with our 18/2 wire at half the cost of 14/2
- Clever installation techniques with our Class 2 rating
- Each fixture is rugged & has a built-in smart driver
- Fixture engineering is top quality; capable of decades of use
- Save more time & money - our designs enable you to accurately do "trip—less" quotations

DelphiTech's Snap-Wiring™ hides wiring without needing attic access. Much faster installs too!
