

Outdoor Home Lighting Design

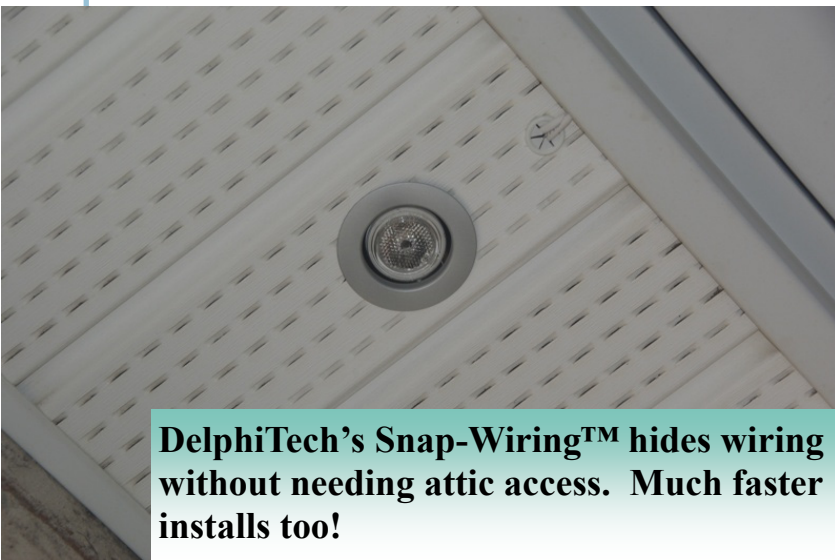

Convenient - Economical - Professional - Maintenance-free LED Fixtures

Save Energy Costs on Your Home Outdoor Lighting

Home owners – Let us help you design a custom solution for your home. Applicable to an existing home or new construction. Submit daytime photos or plans, and we will schedule a phone call at your convenience while you are at your computer. We virtually walk you around your home and show all the possible options. Using your preferences, we prepare a custom lighting plan for your needs.

- Design in 1 hour phone consultation with web references
- All 4 sides of your home or cottage are included
- We create a complete visual design plan following call
- Custom lighting plan is emailed to you in multi-page views
- Order components factory-direct; shipped to your home
- Quick quotes – Email design to any electrical contractors
- Optional Do-It-Yourself installation—free technical support

DelphiTech's Snap-Wiring™ hides wiring without needing attic access. Much faster installs too!
