

# Home Outdoor LED Lights

Industrial-grade High-performance LED Lighting for Your Home

**Durability  
Performance  
Savings**

**WARM and COOL  
light available  
(COOL is shown  
both photos)**

**Our lenses allow precise lighting in needed areas and avoids putting light in neighbor's yard and bedroom windows. No wasted light means brighter with less power.**

## Revolutionary Canadian-made Home Outdoor LED Lights by DelphiTech®

### Performance Comparison—Ours and Theirs Outdoor LED Recessed Soffit Lights

| DelphiTech Products  | Typical National Brands  |
|--|--|
| 2.25" hole & 2.8" diameter trim ring fits between soffit corrugations ✓                            | 4.25" hole & 5" diameter trim ring sticks out over soffit corrugations   |
| power consumed 2 Watts ✓   | power consumed 9-10 Watts  |
| efficiently light where needed, 3X brighter on 1/5 energy used* ✓                                  | wastes light, 1/3 as bright in needed vertical direction at 5X more energy   |
| tilts providing desirable vertical lighting, almost all roof designs ✓                             | most models little or NO tilt so lighting shines sideways on sloped soffits  |
| optics remain clear - won't crack or discolor for 20+ years outdoors ✓                             | NO assurance on light transmission durability in outdoor conditions  |
| lens system only shines light in useful areas for maximum results ✓                                | wasted light in unwanted areas like neighbor's yard, bedroom windows   |
| trim rings will never rust or discolor, 4 color choices ✓  | NO assurances on trim ring durability, 2-3 color choices   |
| warranty of 7 years, unlimited hours, no receipt needed, automatically transferred to next owner ✓ | typical warranties of 3-5 years, some with hours restrictions, requires original proof of purchase, not transferable |
| 3X-6X more durable, expected lifetime 180,000+ hrs ✓   | expected lifetime 30,000 to 50,000 hrs   |
| designed with technology to absorb most electrical surges from nearby lighting strikes ✓           | typically does not contain any electrical surge suppression technology   |

\*brightness compared using DelphiTech's medium lens for long reach, and averaged over both 3500 & 5000K color temperatures. Our wide lens results in 1.5X brighter for 1/5 the power.

Gray trim ring shown also available:

- white trim
- black trim
- tan/sand trim
