

# Patented Canadian-made Home Outdoor LED Lights

## Elegant High-performance Industrial-grade LED Lighting

**Durability  
Performance  
Savings**

How DelphiTech® surpasses all other brands of Recessed Outdoor LED Lights		
Benefit	DelphiTech Lights	Typical National Brands
Fitted	2.25" hole & 2.8" size fits between soffit corrugations ✓	4.25" hole & 5" size does not fit soffit corrugations
Energy	Consumes only 2 Watts per light fixture for outstanding efficiency ✓	Typically consumes 9-10 Watts per light fixture
Brightness	Efficient light, 3X brighter in desired vertical direction with our crystal-clear lens technology ✓	Wasteful light, only 1/3 as bright vertically due to a broad light diffuser
Design	Tilts providing desirable vertical lighting, almost all roof slopes - best designs are easily achieved ✓	Most models little or no tilt causes lighting to shine sideways on sloped soffits
Durability	Optics remain clear - won't crack or discolor for 20+ years outdoors for enduring performance ✓	No assurances provided for light transmission durability outdoors
Focused	Lens system only shines light in useful areas for maximum results while conserving energy ✓	Wastes light in unwanted areas like neighbor's yard and bedroom windows
Components	Trim rings will never rust or discolor and come in 4 colors ✓	No assurances on trim ring durability, 2-3 colors
Warranty	Up to 10+ years, unlimited hours, no receipt needed, automatically transferred to new home owner ✓	Typically 3-5 years, hours limits, requires proof of purchase, not transferable
Lifetime	3X-6X more durable, estimated lifetime 180,000+ hrs ✓	Estimated lifetime 30,000 to 50,000 hrs
Surges	Technology to absorb electrical surges from nearby lightning ✓	Typically no surge suppression technology
